

Syringe Filters

Cat No	Product Description	Price/Qty
MS SF17JP045AN	PTFE Hydrophobic 17mm, syringe filter non sterile, PP housing, 0.45um Box 100	\$90.00
MS SF17JP020AN	PTFE Hydrophobic 17mm, syringe filter non sterile, PP housing, 0.20um Box 100	\$90.00

Disposable Syringes:

Cat No	Product Description	Price/Qty
MSS3P10LL	10ml disposable sterile luer lock syringe Box 100	\$17.00
MSS3P10LS	10ml disposable sterile luer slip syringe Box 100	\$17.00
MSS3P20LL	20ml disposable sterile luer lock syringe Box 50	\$17.00
MSS3P20LS	20ml disposable sterile luer slip syringe Box 50	\$17.00

HPLC Vials:

Cat No	Product Description	Price/Qty
32009-1232	9mm large mouth, screw 2ml clear glass vial, Box 1000	\$200.00
5395-09FRB	9mm Blue screw cap with PTFE/Sil septa, Pack 1000	\$220.00
32008-1232	8mm narrow mouth, screw 2ml clear glass vial, Box 1000	\$260.00
806550-08	8mm Black screw cap with PTFE/Sil septa, Pack 1000	\$280.00

SMART - The new generation of VOLAC micropipettes

Then the new SMART Volac Pipette is right for you!

· **It is robust!**

Despite a surprisingly low weight, the SMART micropipette is extremely durable. Even dispensing aggressive chemicals is possible because the SMART is made of a specially developed material that provides excellent protection against chemical attack and corrosion and is fitted with PTFE seals. The use of special thermoplastic coating on the handle prevents body heat from affecting accuracy- even with continuous use. The SMART pipette is 100 % UV resistant and can be autoclaved without dismantling.

· **It is precise!**

The 'Click-STOP' mechanism prevents accidental volume changes. The SMART micropipettes are calibrated in an ISO 17025 accredited testing laboratory and supplied with an individual quality certificate and test report in accordance with ISO 8655.

· **It looks great!**

Due to the slim and ergonomic design, the SMART Pipette fits comfortably in your hand. It is suitable for both left and right handed users. The 4-digit display is large and clear to read, for precise setting of the volume range. While pipetting, the display is always visible.

· **It is fun to work with!**

The colour code ensures easy identification of different sizes. and the Pipette has a soft-touch tip ejection.

Smart Pipette- Volac:

Cat No	Product Description	Price/Qty
SVA-100	100ul-1000ul Volac Smart pipette, variable volume, Each	\$349.00
